

## Privacy Policy

This Privacy Policy describes how Imedview, Inc. collects, stores, uses, and/or discloses personal data regarding all users who visit or otherwise interact with our website or our Viewpoint portal and any other site, e-mail, or messaging service under our control.

Imedview does not now automatically collect or generate any data with regard to users on our website. Use of Viewpoint is strictly logged and audited on a continual basis for security purposes and for controls and information related to HIPAA compliance. We will never use that information for marketing purposes except to provide you with more information about programs or services that you are already engaged in nor do we offer any information about anyone at anytime to anyone else for marketing purposes.

Personal / professional data about individual users and their employers, as is necessarily entered for the purposes of requesting and completing requested services, is housed in a HIPAA compliant, 256-bit secured and encrypted database solely for the purpose of carrying out requested services and any ancillary services related to them or as requested by the user. Use of our website or the Viewpoint portal or request of services to be conducted by Imedview is considered consent for collection of said data, to be held as Confidential or higher by Imedview and Imedview staff.

User data collected by Imedview may also be provided to us by employers on behalf of their employees in order for us to contact, invite, or subscribe them to our services and/or Viewpoint portal or provided to us by sponsored organizations, conferences, or events with attendees' permission. In all cases, user data is always held as Confidential or higher by Imedview and Imedview staff.

Imedview, Inc. only uses personal user data as necessary for the performance of our services, to comply with legal and contractual obligations, and/or to support our legitimate interests in maintaining and improving our service.

We neither sell nor share any user data with anyone for any reason at any time.

In order to protect your data held with us, we are using industry standard and above physical, procedural, and technical security protocols including encryption as appropriate. In the event of a breach that impacts your data, you will be notified within 72 hours of discovery.
